

PARTNERSHIP PROPOSAL

Bringing hotel-style housekeeping to Solitair.

PREPARED FOR
Solitair
Property Management Team

PREPARED BY
Zing Cleaning Inc.
Alvaro De Jesus, Founder & CEO

WELCOME

Thank you for taking the time to learn more about Zing.

We're excited about the opportunity to partner with your team and bring a new type of resident amenity to Solitair. Zing isn't a marketplace that dispatches whoever's available — it's an in-house housekeeping team, built specifically for multifamily residential buildings. Our goal is simple: provide residents with the convenience of hotel-style housekeeping while creating a premium amenity that enhances the overall living experience.

WHAT IS ZING?

A dedicated housekeeping team, assigned to your building.

Hotel-style experience

Residents enjoy the convenience of a dedicated housekeeping team assigned to their building.

Chore-based services

Book a full cleaning, or simply fold laundry, wash dishes, make the bed, or refresh one bathroom.

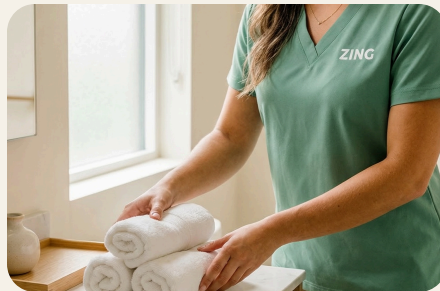

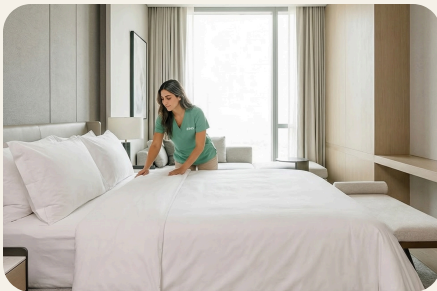

Built for apartment living

Everything is managed through the Zing app — from booking to notifications.

The same trusted team

Residents build trust with familiar professionals instead of meeting a new cleaner every visit.

Today's residents already expect convenience on demand.

Food delivery. Grocery delivery. Dog walking. Package lockers. Mobile car care.

Housekeeping should be just as convenient — Zing makes it possible.

COST TO THE PROPERTY

\$0

No fee, no subsidy, no minimum.

Residents pay Zing directly. We're also open to an NOI-sharing agreement where that fits better.

Zing handles scheduling, staffing, customer support, payments, insurance, and quality control.

BENEFITS FOR PROPERTY MANAGEMENT

A premium, hotel-level amenity your residents will love.

Increase resident satisfaction

A highly valued lifestyle amenity.

Differentiate your community

A luxury service few communities provide.

Minimal operational involvement

Zing handles scheduling, staffing, support, payments, insurance, quality control.

Resident-first technology

Simple booking, notifications, recurring service.

NOT ANOTHER MARKETPLACE

A dedicated team, not a marketplace.

On-demand cleaning apps dispatch whoever is free that day from a shared pool. Zing assigns real people to your building.

	ZING	ON-DEMAND MARKETPLACES
Who shows up	A housekeeper assigned to Solitair	Whoever is available that day
What they know	Your building, your residents, your routines	Nothing — a new provider each visit
Who's accountable	One partner: Zing	A network of independent contractors

LIABILITY, INSURANCE, VETTING

Coverage and access, handled.

Zing carries its own coverage

General liability & workers' comp with Zing Cleaning Inc. COI provided before launch.

W-2, background-checked, badged

Every professional is a W-2 employee, screened and trained — not a 1099 contractor.

LAUNCHING A NEW COMMUNITY

Every partnership begins with a complimentary resident activation.

Our signature launch event features a professional espresso bar in the lobby where residents enjoy complimentary coffee while meeting the Zing team — creating excitement while residents grab coffee, meet the team, download the app, and book their first visit.

WEEK ONE AT SOLITAIR

APPROVAL	Regional signs off on a pilot. We send the COI and W-9.
DAYS 1-5	We build the Solitair booking page, assign the team, and hand your team a resident announcement.
LAUNCH DAY	Espresso bar in the lobby — coffee, the team, the app, first visit booked.

OUR RECOMMENDED APPROACH

Start with one community. Solitair.

Launching a pilot allows both onsite management and regional leadership to evaluate the service firsthand — minimizing risk while your team experiences Zing before any long-term decision.

NEXT STEPS

Building the future of apartment living.

Exceptional communities are built around experiences that make residents' lives easier. We'd love the opportunity to bring that experience to Solitair — book 30 minutes and, once approved, Solitair can be live in about three weeks.
